

## **CloroxPro® Introduces the Clorox® TurboPro™ Electrostatic Sprayer and Disinfectant Cleaner**

*The newest addition to the Clorox® Electrostatic Sprayer portfolio makes trusted surface disinfecting coverage more mobile with cordless design*

PLEASANTON, Calif., [May 4, 2021] -- CloroxPro today announced the launch of the new Clorox® TurboPro™ Electrostatic Sprayer, a cordless, handheld electrostatic sprayer device that is easy and convenient to use for small-to-medium sized spaces and disinfecting jobs. The Clorox® TurboPro™ Electrostatic Sprayer expands the family of Clorox electrostatic sprayers and uses a new Clorox® disinfecting solution – the Clorox® TurboPro™ Disinfectant Cleaner for Sprayer Devices – which is registered by the Environmental Protection Agency (EPA) for use through all electrostatic sprayers.

“As facilities evolve their cleaning and disinfecting strategies, the Clorox® TurboPro™ Electrostatic Sprayer helps our customers enhance the safety and wellbeing of their facilities,” said Amy Harmon, Director of Devices, CloroxPro. “Whether customers are using our Clorox TurboPro sprayer or an existing one, Clorox® TurboPro™ Disinfectant Cleaner gives customers the assurance that they are using a trusted, EPA-registered disinfectant for sprayers to help maintain confidence in their shared public spaces.”

The Clorox® TurboPro™ Electrostatic Sprayer and the Clorox® TurboPro™ Disinfectant Cleaner provides convenient, cordless spraying technology with an EPA-registered chemistry that is specifically designed for use through electrostatic sprayer devices. The sprayer device provides safety and efficacy for operators while remaining user friendly and can seamlessly incorporate into facilities’ routine cleaning and disinfecting protocols. Designed for use in small to medium spaces where portability and accuracy is a must, the Clorox® TurboPro™ Electrostatic Sprayer can be used in high-traffic facilities such as schools, offices, restaurants, retail centers, and commuter transportation systems. The device’s handheld, cordless design combined with proven electrostatic technology ensures efficient and effective surface disinfection performance in all the places where clean means everything.

The Clorox® TurboPro™ Disinfectant Cleaner for Sprayer Devices is an EPA-registered electrostatic chemistry used to disinfect and sanitize hard and soft surfaces. The disinfectant can be reliably used through electrostatic sprayer devices including handheld, backpack and cart sprayer devices, without compromising safety, compatibility, or performance. This disinfecting solution has been approved to kill 51 pathogens (including cold and flu viruses<sup>1</sup>, MRSA and norovirus) and SARS-CoV-2<sup>2</sup>, the virus that causes COVID-19, in two minutes and 99.9% of bacteria in five seconds on hard, nonporous surfaces.
