Product Reference Guide

Clorox[®] Clean-Up[®]
Disinfectant Cleaner with Bleach

Clorox® Clean-Up® Disinfectant Cleaner with Bleach

- ▶ **Bleach-based, one-step cleaner disinfectant that is EPA-registered to kill over 50 organisms, including the COVID-19 virus,¹ Avian influenza virus, MRSA and Norovirus**
- ▶ **Contains a corrosion inhibitor to help protect a variety of hard, nonporous surfaces, including stainless steel**
- ▶ **Cuts through grease and grime, and removes tough stains, including mold and mildew stains**

Clorox® Clean-Up®
Disinfectant Cleaner with Bleach
128 fl. oz. Refill
Item No.: 35420

At a Glance Clorox® Clean-Up® Disinfectant Cleaner with Bleach	
EPA Registration No.	67619-17 (Shield)
Product Type	Ready-to-use and Concentrate
Cleaning Chemical Type	Cleaner disinfectant (hard surfaces)
Active Ingredient	Sodium Hypochlorite (1.84%)
pH	12.4-12.8
Odor	Citrus, bleach
Shelf Life	1 year from the manufactured date on label
Toxicity Signal Word	Warning SDS link
HMIS Rating	2-O-O-B
PPE	Safety glasses recommended if splashes are likely to occur

1. SARS-CoV-2 on hard, nonporous surfaces

Disinfection Efficacy Claims

Disinfection	Full Strength	Diluted
BACTERIA		
<i>Acinetobacter baumannii</i>	5 min	5 min
Community associated methicillin resistant <i>Staphylococcus aureus</i> (CA-MRSA)(USA300)	5 min	5 min
Community associated methicillin resistant <i>Staphylococcus aureus</i> (CA-MRSA)(USA400)	5 min	5 min
<i>Escherichia coli</i> (E. coli 0157:H7)	5 min	5 min
ESBL (Extended Spectrum Beta Lactamase) producing <i>Escherichia coli</i> (ESBL producing <i>E. coli</i>)	5 min	5 min
<i>Listeria monocytogenes</i>	5 min	5 min
Methicillin resistant <i>Staphylococcus aureus</i> (MRSA)	5 min	5 min
<i>Pseudomonas aeruginosa</i> (Pseudomonas)	5 min	5 min
<i>Salmonella enterica</i> (Salmonella)	5 min	5 min
<i>Shigella dysenteriae</i> (Shigella)	5 min	5 min
<i>Staphylococcus aureus</i> (Staph)	5 min	5 min
<i>Streptococcus pneumoniae</i> (Strep)	5 min	5 min
<i>Streptococcus pyogenes</i>	5 min	5 min
Vancomycin resistant <i>Enterococcus faecalis</i> (VRE)	5 min	5 min
FUNGI		
<i>Aspergillus niger</i>	5 min	
<i>Trichophyton interdigitale</i> formerly <i>Trichophyton mentagrophytes</i> (Athlete's Foot Fungus)	5 min	

Disinfection	Full Strength	Diluted
VIRUSES		
Avian influenza A virus (H9N2)	5 min	5 min
Human Hepatitis B virus as duck HBV	5 min	5 min
Human Hepatitis C virus (as Bovine viral diarrhea virus)	5 min	5 min
Human immunodeficiency virus type 1 (HIV-1) (AIDS virus)	5 min	5 min
Parainfluenza 1 virus	5 min	5 min
Influenza A2 virus (Hong Kong)	5 min	5 min
SARS-CoV-2 (cause of COVID-19)	5 min	
Adenovirus type 2 (causes colds)	5 min	5 min
Rotavirus	5 min	5 min
Coxsackievirus B3 (Coxsackie)	5 min	5 min
(Human) Hepatitis A virus (HAV) (HAV-1)	5 min	5 min
Norovirus virus (via Feline Calicivirus surrogate)	5 min	5 min
Poliovirus type 1	5 min	5 min
Rhinovirus (cold virus)	5 min	5 min

Directions for Use

Step 1: Preparation

1. Gather supplies.

2. Wash hands with soap and water.

3. Put on PPE required by your facility.¹

¹ Eye protection is recommended if splashes are likely to occur

4. Make sure the area is well ventilated.

Step 2: Application

To clean and disinfect hard, nonporous surfaces

1. Clean visible soil (spot clean).

2. Directly apply with cloth or sponge and wet surface completely.
To dilute: mix 1/2 cup or 1 cup per gallon of water.²

² Do not dilute if you need to kill SARS-CoV-2, *Aspergillus brasiliensis* (formerly *A. niger*) and *Trichophyton mentagrophytes* (Athlete's Foot Fungus)

3. Surface needs to stay wet for 5 minutes.

4. Rinse or wipe clean. Allow to air dry.

To clean and kill mold and mildew on hard, nonporous surfaces*

1. Clean visible soil (spot clean).

2. Apply product at full strength with cloth or sponge.

3. Surface needs to stay wet for 5 minutes.

4. Rinse or wipe clean. Allow to air dry.

* When treating mold, EPA recommends wearing eye protection, gloves and N95 mask. If area with mold is larger than 10 sq. ft. or area has on-going moisture issues, seek professional treatment.

Directions for Use (cont.)

To clean, deodorize and remove stains from hard, nonporous surfaces

1. Apply product at full strength or diluted (mix 1/2 cup or 1 cup of this product with 1 gallon of water) with a cloth or sponge.

2. For floor, mix 1 cup of this product with 1 gallon of water with a mop.

3. Rinse or wipe clean. Allow to air dry.

Create your own wipes with this product and disinfect hard, nonporous surfaces

1. Clean visible soil (spot clean)

2. Saturate clean wipes or cloths³ into a container with the product (full strength).

3. Types of wipes and clothes to use include synthetic dry wipes (best if 100% polyester), microfiber cloth (best if 100% polyester) and cotton cloths. Do NOT use paper towels as they will rip and tear.

3. Wring out excess liquid.

4. Wipe the surface.

5. Surface needs to stay wet for 5 min.

6. Rinse or wipe clean. Allow to air dry.

Rinsing step is required if the product is used on food-contact surfaces.

To clean and decontaminate against bloodborne pathogens on surfaces soiled with blood and body fluids

1. Wear disposable latex gloves, gowns, masks and eye coverings.

2. Thoroughly clean and remove blood and other body fluids from surfaces with a cleaner.

3. Dilute 1/2 cup of this product to 1 gallon of water and apply to surface.

4. Surfaces needs to stay wet for 5 min.

5. Rinse or wipe clean. Allow to air dry.

6. Dispose of infectious material in accordance with local regulations for infectious waste disposal.

Directions for Use (cont.)

Step 3: Wrap Up

1. Discard disposable supplies; **2.** Store products. clean and disinfect reusable tools.

3. Remove PPE.

4. Wash hands with soap and water.

Common Applications

Education — Disinfect

- ▶ Nurses' rooms
- ▶ Desks
- ▶ Common areas
- ▶ Shelves

Office Areas — Disinfect

- ▶ Appliance exteriors
- ▶ Desks/tables
- ▶ Chairs
- ▶ Countertops

Frequently Touched Surfaces — Disinfect

- ▶ Light switches
- ▶ Doorknobs
- ▶ Handrails

Restrooms — Disinfect

- ▶ Floors and partitions
- ▶ Sinks
- ▶ Toilet and urinal exteriors
- ▶ Vanities

Kitchen Areas (non-food-contact) — Disinfect

- ▶ Refrigerators, microwaves, freezers
- ▶ Stovetops*
- ▶ Countertops

Stains/Soils Removal

- ▶ Bathtub ring/toilet ring
- ▶ Mold stains
- ▶ Grease and grime
- ▶ Soap scum

* Allow to come to room temperature

Surface Compatibility

This product is safe for use on these surface materials.*

Chrome

Corian®

Enamel

Fiberglass

Formica®

Glazed Porcelain†

Linoleum

Marlite®

Metal

Plastic

Laminate

Porcelain

Resilient
Flooring

Sealed Fiberglass

Sealed Granite

Stainless Steel

Synthetic Marble

Avoid contact with clothes, fabric, unfinished wood, rubber, painted and paper surfaces. Do not use on steel, aluminum, silver or chipped enamel.

PRO TIP

If you're unsure about compatibility with a certain surface, contact the manufacturer or test it on the surface in an inconspicuous area prior to using it more widely. To prevent residue buildup and further reduce the risk of potential surface damage, wipe periodically with a clean damp cloth to remove residue and excess disinfectant.

* Compatibility with equipment and surfaces will vary based on the components and material coatings. Check with the manufacturer for guidance on approved products for disinfection.

† Avoid prolonged contact with porcelain.

Product Storage & Disposal

STORAGE

Do's

Secure bottle (container tightly closed)

Store in a dry, cool and well-ventilated place

Store at or below eye level for safety precaution

Don'ts

Do not freeze

Do not store in location accessible to children

Keep out of direct sunlight

DISPOSAL

Chemical

Do's

Dilute with water before disposal in a sanitary sewer

Contact your local environmental, health or solid waste agency for proper disposal of the chemical

Don'ts

Pour it as is down the drain or toilet, on the ground, into storm sewers

Dispose of with regular trash

Container

Do's

Triple rinse promptly, then recycle plastic container

Don'ts

Reuse or refill plastic container

Product Safety

Precaution for safe handling: Handle in accordance with good industrial hygiene and safety practice. Do not use or mix this product with other household chemicals, such as ammonia, toilet bowl cleaners, rust removers or acid, as this releases hazardous gases.

First Aid:

Eye contact: causes substantial but temporary eye injury

- ▶ Hold eye open and rinse gently with water for 15–20 min.
- ▶ If present, remove contact lenses after the first 5 min. of rinsing, then continue rinsing eye.
- ▶ Call a poison control center or doctor for treatment advice.

Skin contact: prolonged contact may cause irritation

- ▶ Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes.
- ▶ Call a poison control center or doctor for treatment advice.

Inhalation: exposure to vapor or mist may irritate respiratory tract

- ▶ Move to a place with fresh air.
- ▶ If person is not breathing, call 911, then give artificial respiration, preferably mouth to mouth if possible.

Ingestion: may cause irritation to mucous membranes and gastrointestinal tract, nausea, vomiting and diarrhea

- ▶ Sip a glassful of water if able to swallow. Do NOT induce vomiting.

Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling or going for treatment.

National Fire Protection Association (NFPA) Ratings:

Health Hazard: 2
Flammability: 0
Instability: 0
Physical and Chemical Hazards: None

Hazardous Material Identification System (HMIS) Ratings:

Health Hazard: 2
Flammability: 0
Physical Hazard: 0
Personal Protection: B
